SECP2523 DATABASE

SESSION 2024/2025 - SEMESTER 1

ALTERNATIVE ASSESSMENT REPORT: PHASE 1

Name	MUHAMMAD AFIQ DANIAL BIN ROZAIDIE
IC No. / Matric No.	041204011037 / A23CS0117
Year / Program	2 / SECPH
Section	01
Lecturer Name	ROZILAWATI BINTI DOLLAH @ MD. ZAIN
Case Study	Member Application Module
System Name	System Cooperative KADA
Group Name	AlphaTech

SECTION A (SYSTEM'S OVERVIEW)

1.1 Overall Description

Our group will create a system that will be a website that replaces manual systems by using multiple technologies to ensure the smooth-running system for KADA. Each of this technology has its own functionality to help the development of this system. The system will have some existing functionality but with additional changes using these technologies will increase efficiency to enhance the working experience because the technologies used will develop a web server with a relational database management system. The system will cover functionalities such as user authentication, membership application, membership application, administrative processes, and successful payment notification.

Group Members' Name	Matric No	Module
Afiq Danial	A23CS0117	Membership Application
Iman Abadi	A23CS0084	Monitor Financial Status
Alif Fathi	A23CS0112	Loan Application
Afif Shaqir	A23CS0204	Manage Policies

1.2 Project Weaknesses or Improvement

Accessibility Improvement

- The language variety is one of the weaknesses. So, the accessibility improvement that we use is the multiple-language support if there are some wider audience or culture that want to apply. This makes it easier to translate one by one manually.

1.3 Proposed Module

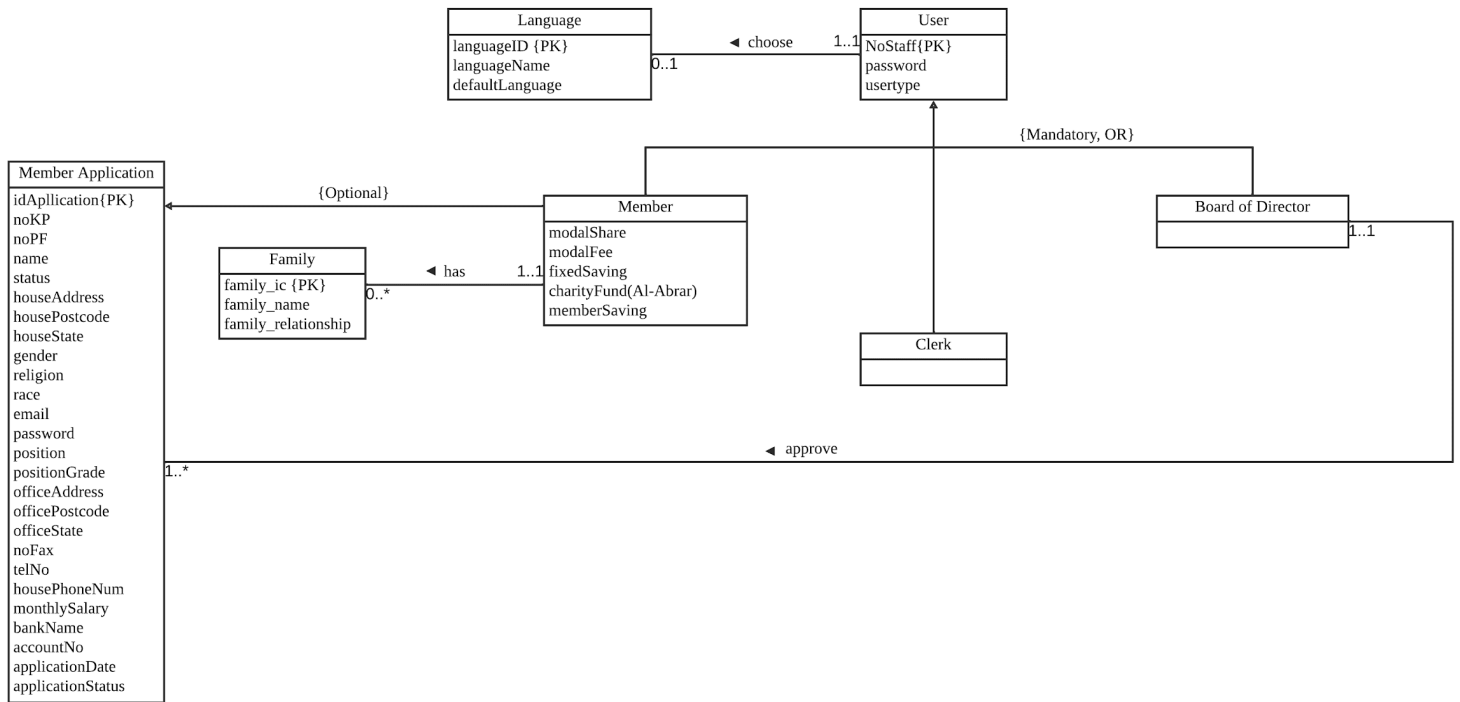

Enhanced Accessibility Module

For Multi-Language Support

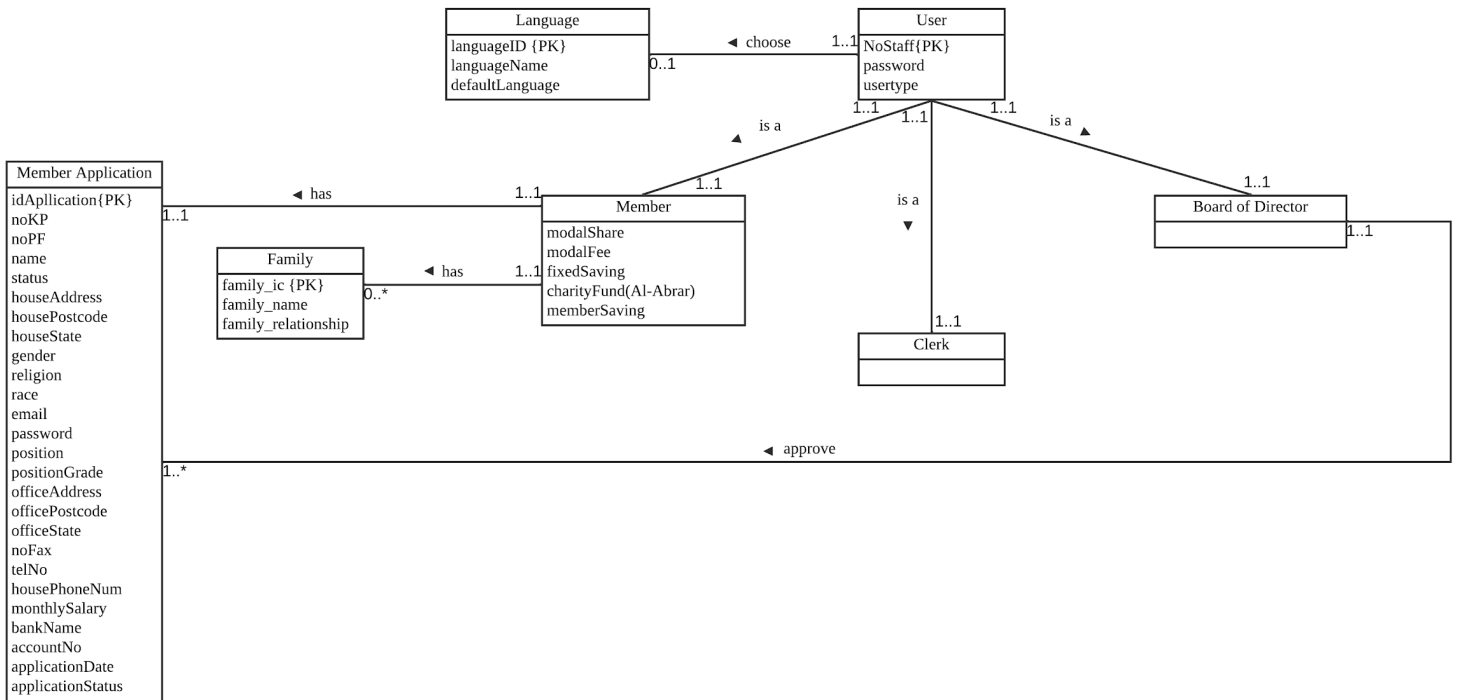

- We use a dynamic language selection which means we integrate as much multi-language that we possibly can to the system that allows users to select their preferred language like an option dropdown menu at the start of the application process.

SECTION B (DATABASE PLANNING AND DESIGN)																									
2.1	Conceptual ERD																								
		<< Draw a conceptual ERD to represent the proposed module. >>																							
		The answer is right below																							
2.2	Logical ERD																								
		<<Provide logical ERD of your module in the proposed system.>>																							
		The answer is right below																							
2.3	Data Dictionary for Logical ERD																								
		<table><tr><th>Entity Name</th><th>Multiplicity</th><th>Relationship</th><th>Entity Name</th><th>Multiplicity</th></tr><tr><td>User</td><td>0..1 1..1 1..1 1..1</td><td>choose is a is a is a</td><td>Language BOD Clerk Member</td><td>1..1 1..1 1..1 1..1</td></tr><tr><td>Member</td><td>0..* 1..1</td><td>has has</td><td>Family Membership_ Application</td><td>1..1 1..1</td></tr><tr><td>BOD</td><td>1..*</td><td>approve</td><td>Membership_ Application</td><td>1..1</td></tr></table>				Entity Name	Multiplicity	Relationship	Entity Name	Multiplicity	User	0..1 1..1 1..1 1..1	choose is a is a is a	Language BOD Clerk Member	1..1 1..1 1..1 1..1	Member	0..* 1..1	has has	Family Membership_ Application	1..1 1..1	BOD	1..*	approve	Membership_ Application	1..1
Entity Name	Multiplicity	Relationship	Entity Name	Multiplicity																					
User	0..1 1..1 1..1 1..1	choose is a is a is a	Language BOD Clerk Member	1..1 1..1 1..1 1..1																					
Member	0..* 1..1	has has	Family Membership_ Application	1..1 1..1																					
BOD	1..*	approve	Membership_ Application	1..1																					
2.4	Relational Database Schema																								
		<<Provide all relations database schema of your proposed module.>>																							
		The answer is right below																							
2.5	Normalization																								
		<< Illustrate the normalization process up until BCNF to every relation listed in 2.5. At the end of this section, list all normalized relations achieved. >> The answer is right below																							

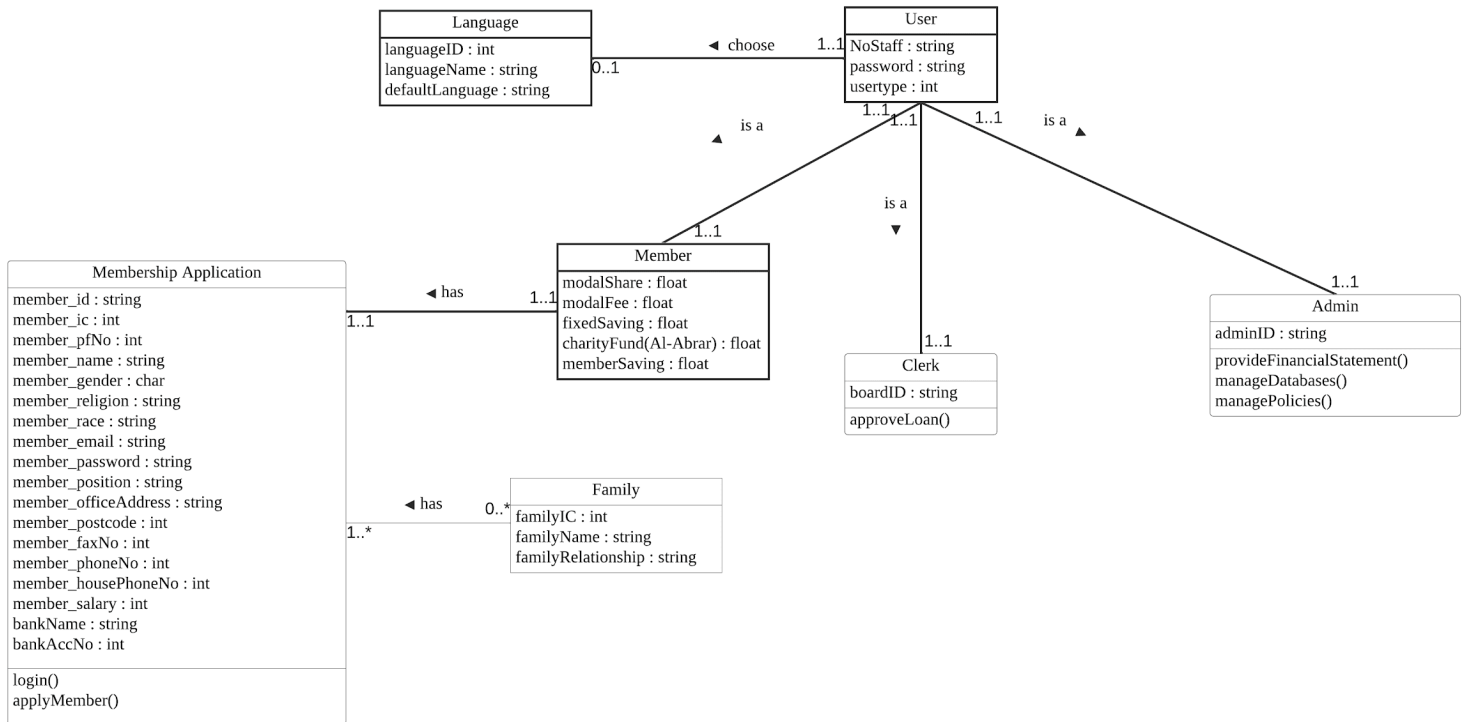

2.1 Conceptual ERD

2.2 Logical ERD

2.4 Relational Database Schema

2.5 Normalization
